Name: Kagiso Moshwane

Responsibility: GUI

Task	Completed?	Tested?	Commented?
AppRouter	Yes	Yes	Yes
Login form	Yes	Yes	Yes
Registration form	Yes	Yes	Yes
Login Page	Yes	Yes	Yes
Dashboard Page	Partially	No	No
Resource Cards	Partially	No	No
Admin Page	Partially	No	No
Admin Panel	No	No	No
AuthService	Partially	No	No

Name: Sphesihle Dlamini

Responsibility: Backend – Authentication, Facility CRUD, Usage Session Logic

What were your responsibilities (copy from repo): Sphesihle is responsible for Backend-authentication(login, JWT, roles), Facility CRUD, and Usage Session logic(start/end/duration/concurrency checks).

Task	Completed?	Tested?	Commented?
AuthService.register()	Yes	Yes	Yes
AuthService.login() + JWT issuing	Yes	Yes	Yes
AuthService.validateTocken()	Yes	Yes	Yes
AuthService.isAdmin()	Yes	Yes	Yes
RequireAuth middleware (protect routes)	Yes	Yes	Yes
RequireAuth middleware (role-based access)	Yes	Yes	Yes
SessionManager.startSession() + concurrency check	Yes	Yes	Yes
SessionManager.endSession()	Yes	Yes	Yes
SessionManager.updateDuration()	Yes	Yes	Yes
Facility CRUD (add/update/remove)	No	No	No

Name: Tshepiso Mabelane

Responsibility: Database

What were your responsibilities (copy from repo):

Task	Completed?	Tested?	Commented?
PostgreSQLschema: Users, Facilities, UsageLogs	Yes	Yes	Yes
UserRepository(create, find, verify, credentials)	Yes	Yes	Yes
UsageLogRepository(insert log, trends query)	Yes	Yes	Yes
FacilityRepository(CRUD + status update)	Yes	Yes	Yes
PasswordHasher (bcrypt hash/verify)	Yes	Yes	Yes

Name: Mpho Mokgoatsane

Responsibility: Testing, API Service, Auto-Session Release and Integration

Task	Completed?	Tested?	Commented?
`ApiService` – `get()`, `post()`, `put()`, `delete()` methods	Yes	Yes	Yes
`ApiService` – HTTP error handling	Yes	Yes	Yes
`ReleaseTimerService` – session expiry and reminder methods	Yes	Yes	Yes
`ReleaseTimerService` – automatic session release	Yes	Yes	Yes
`ReleaseTimerService` – timer start/stop and periodic checking	Yes	Yes	Yes
`ApiService – Jest unit tests`	Yes	Yes	Yes
`ReleaseTimerService` – Jest unit tests	Yes	Yes	Yes
Integration testing between system components	No	No	No
End-to-end and regression testing across system layers	No	No	No
Bug/defect tracking and integration coordination	No	No	No

Name: Bongiwe Mphuthi

Responsibility: Websocket real-time push, Notifications, and trends aggregation, which are all in Backend.

Task	Completed?	Tested?	Commented?
WebSocketService: real time status push	Yes	Yes	Yes
WebSocket client: connect/disconnect	Yes	Yes	Yes
NotificationRequest: creation	Yes	Yes	Yes
NotificationRequest: cancellation	Yes	Yes	Yes
NotificationRequest: sent status	Yes	Yes	Yes
NotificationService: facility availability notifications	Yes	Yes	Yes
Trends aggregation: usage history containing multiple sessions	Yes	Yes	Yes
